

'Love to learn: learn to love'

How to access Google Classroom

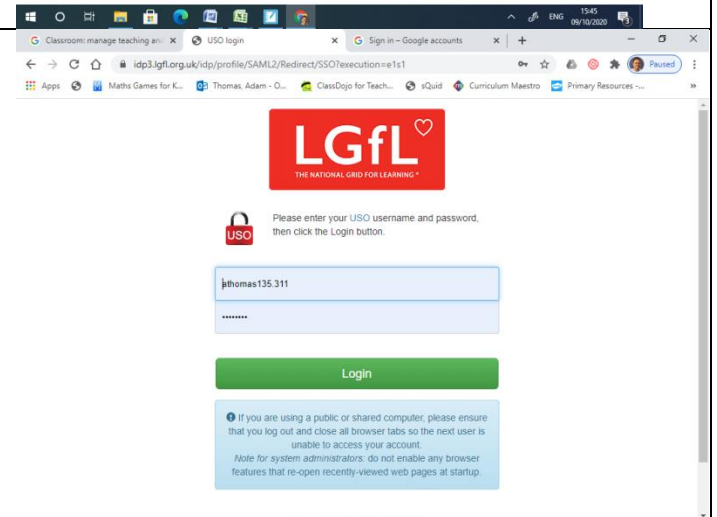

1. Click on the 9 dots in the corner of the home screen and select the classroom icon. If it's not there go to classroom.google.com and select "Go to Classroom"

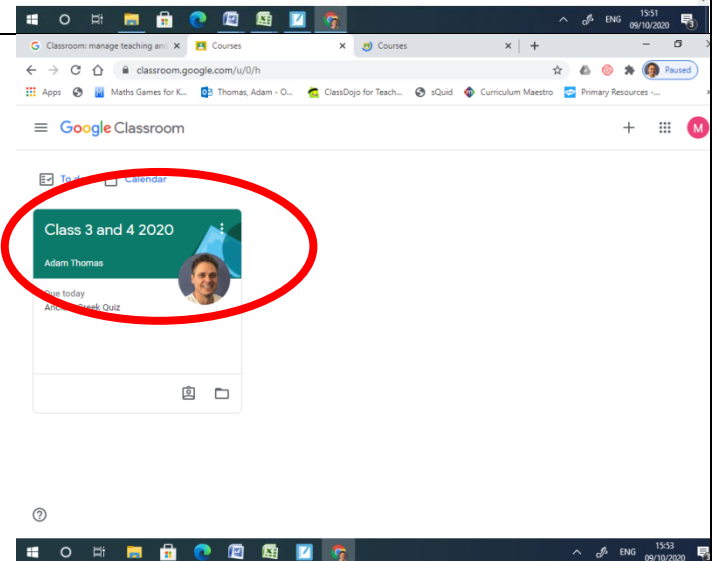

2. Log in using your school account and password, e.g. athomas135.311@dametipping.co.uk

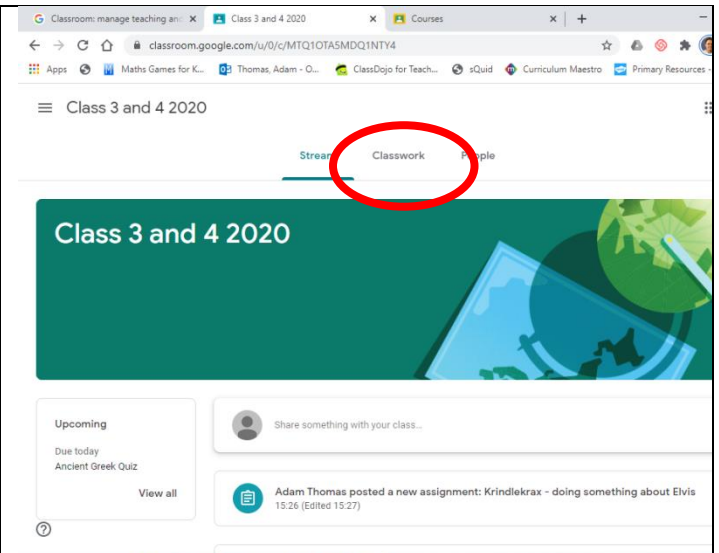

3. You will get taken to this page. Enter your login details again, but without "@dametipping.co.uk", e.g. athomas135.311

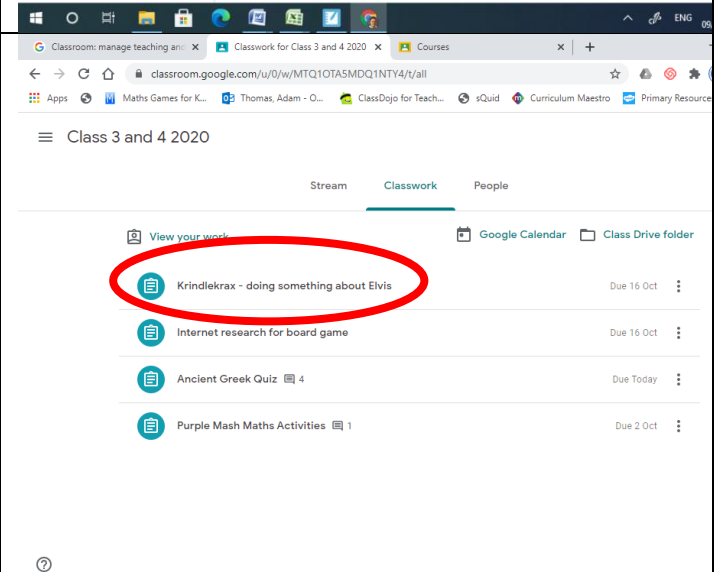

4. Click on "Class 3 and 4 2020".

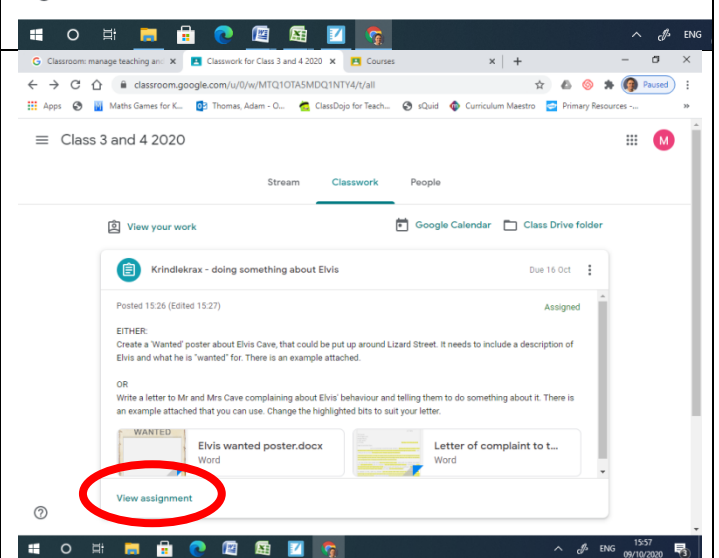

5. Click on "Classwork".

6. This is a list of all of your current assignments. Click on the one you want to do to read more about it.

7. Click on "View Assignment".

8. This tells you everything about the assignment. If I have attached any files to help you (like here, in the blue circle) then you can click on them to download. There may also be links to websites I think you will find useful.

Click on the “Add or Create” button (green circle) to upload your work, if you have done it on the computer. You can also click on this if you want to do your work as a Google Doc.

Once you have finished the work, even if you didn't use a computer to do it, click on “Mark as Done” (purple circle).
